Como funciona el sistema de precios?

Los precios son por 1000 unidades

<https://1popularity.com/services>

acá están los precios

tenemos muchos servicios activos

le ayudara a diferenciar algo, usted debe tener en cuenta que precios muy bajos suelen tener problemas como caídas de seguidores, likes, o el servicio escogido aunque no siempre es una regla esencial funciona en muchos temas como seguidores de Instagram, puede que tengan problemas de velocidad, entre otras.

Servicios con mayores costes tendrán mejor calidad usualmente

Si el precio aparece 0.20\$ significa que vale 20 centavos 1000 unidades

Ejemplo 1000 seguidores o 1000 likes

Lo mismo si dice 1\$ significa que vale 1 dólar 1000 unidades
